

Environmental impact (production stage)

Energy type		Discharge into water	per kilo of product	Emission into the air	per kilo of product
Coal	%	COD	<1,4 mg/kg	CO ₂	No information*
Water	%	BOD	<0,3 mg/kg	CO	No information*
Oil	%	P	<0,1 µg/kg	SO _x	No information*
Gas	%	N	<0,8 mg/kg	NO _x	No information*
Electricity	100%	Heavy metals	<0,1 µg/kg	Dust	No information*
Biofuel	%			Ammonia	No information*
Own	%			VOC total**	No information*
	%				
Total use of energy ***	0,040				

* Not relevant

** Volatile organic substances

*** KWh per kilo produced product

Raw material stage

There is no information for raw materials.

Source of raw materials/input goods

	Scandinavia (%)	Rest of Europe (%)	Other (%)
Region of origin of the raw materials (Total for the manufacturing unit)	80	5	5

Production stageDoes production generate residual products? Yes No

If yes, how are these dealt with:

Is any hazardous waste generated during production? Yes No

If yes, how is this dealt with:

EWC code: 08 04 10 Waste adhesives and sealants
20 01 28 Paints, inks, adhesives and resins**Distribution of product****Production location and country** Glanshammar, SwedenMost common transport method (%): Truck 100% Ship Plane Train OtherForms of distribution Via warehouse: Direct to customer Special forms of delivery Bulk: Large packs: One-off packages: Other:**Packaging**Types of material used: PlasticREPA²- connection: Yes: Customer no.: 9169312619 No:

If there is no REPA connection, specify how the producer responsibility is met:

Building stage

The product must be stored:

Frostproof

According to the Act (1988:868) on flammable & explosive goods

Usage stage

Operation / maintenance The product requires no special input goods for operation and maintenance

Service length: Provided that the product has been applied in the manner stipulated by the manufacturer/supplier, the product can last as long as the base to which it is applied.

Emission

Type of emission	Amount of $\mu\text{g}/\text{m}^2 \text{ h}$			Measuring method
	4 weeks	26 weeks weeks	
TVOC	<100			FLEC, SP1598

Demolition/removal

Does the item require special measures for protection of health and the environment?	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
--	------------------------------	--

If yes, specify how:

Cured product is handled as per the ordinance on hazardous waste Yes No

Non-cured product is handled as per the ordinance on hazardous waste Yes No

Is energy recovery possible for the product? * Yes No

* Incineration should take place in controlled forms, e.g. in a combustion plant intended for the purpose..
