Building Product Declaration

This form is in accordance with the Association for Construction Product Declarations guidelines of BVD2015 and the Swedish Adhesive and Sealants and Swedish Paint Makers Associations guidelines. The information is based on industry recommendation and current legislation.

1. Basic data

Product identification							
Product name: Dalapro Max Plus	Pr	roduct group: Wet ready mixed filler					
Issue date: 2019 01 29	ID	: 614132, 614134					
KN-nomenclature/SNI:							
Product description: Wet ready mixed filler							
In case of a revised declaration							
The change relates to:	A changed product is identified through the classification- and labelling information. Minor changes, with no relevance to classification, cannot be distinguished by any information on the outside of the package.						
Replaces version from (date):	Controlled without change on (date):						
Does a Declaration of Performance exist, with the Construction Product regulation	🛛 Yes	🗌 No	Not relevant				
If yes, state the number on the Declaratio	n of Performan	ce: 614132, 61413	34				
Other information:							
Company name: Saint Gobain Sweden AB	8 Scanspac	Company registration number: 556241-2592					
Address: Kemivägen 7, 70597 Gl	anshammar,	Contact person: Ellinor Johansson					
Sweden	Telephone: + 46 19 463400						
Web site: www.dalapro.com		E-mail: info@dalapro.com					
Does the company have an environment	system?	🛛 Yes	🗌 No				
The company possesses certification in compliance with	🔀 ISO 9001	🔀 ISO 14001	Other, spec	cify:			

2. Sustainability work

Has any code of conduct, policy or guideline been used to address Corporate Social Responsibility?	Yes	🗌 No			
If yes, describe below the company's work with CSR:					
Other information:					

3. Declaration of contents

Is there a Safety Dat product?	a Sheet for the			Yes		No		
State the weight of	the product: ~ 1,0 k	:g/l	Wei	ght is not po	ssible to state/ no	ot applicable 🗌		
State the classificati	on of the product:		=					
At the time of delivery, the product comprises the following parts/components, with the chemical composition stated:								
Constituent material / components	Constituent substances	Weig or		EG-no/CA r	Classification	Comments		
Filler	Dolomite	40-80) %	16389-88-1	-			
Water	Water	20-40) %	7732-18-5				
Binder	Latexcopolymer	1-10	%					
Thickener	Cellulosa thickener	1-5						
Filler	Perlite	0-25	%	93763-70-3	8			
Other information:								
Does the product, o Concern, found on t						Yes	🔀 No	
In case of complex p concentration been				The wh	ole product	The individual parts	□ N/A	
State which version	of the Candidate Li	st that	has b	een used (Ye	ar, month day):	2018 11 13		
Is the RoHS-directive the product?	e relevant for] Yes		🛛 No				
If the chemical composition of the l								
Component		onstitu ubstan		Weight % alt g	EG-no/ CAS- no	Classification	Comments	
Does the product contain any nanomaterial, purposely added to the product for a specific reason/function:					Yes	No No		
Om Yes, state the material:								
Other information:								

4. Raw materials

State the content of volatile organic compounds (g/l):									
Raw material	Raw material								
Component	Material	Country of raw material extraction	Location of raw material extraction	Land of manufacture	Location of manufacture	Comment			
Enter proport	Enter proportion of renewable material in the product (short cycle, <10 years): Weight %								
Enter proport	tion of renewable	material in the pro	oduct (long cycle, >	•10 years):	Weight %				
Has an includ method?	ed bio based raw	material been test	ed according to AS	STM test	Yes	🗌 No			
	orting documenta hecking of origin?	tion for the raw ma	aterials for third-p	arty certified	Yes	□ No			
If yes, state the system(s):									
Is there any wood material appearing in CITES appendix for endangered species?					Yes	□ No			
Is the wooden material logged legally and is there any proof of this?					Yes	□ No			
Paints and varnishes					Yes	🗌 No			
If the product is used in a wet area, indicate whether the product has any resistance against algae and fungi?									

5. Environmental impact during the article's life cycle

Is there an EPD made, in accordance with EN 15804 or ISO 14025, for the product?		Yes No Registration		Registration no / ID no for EPD:		
Climate impact (GWP100):	kg CO2-ekv	Ozone depletion (ODP):		: kg CFC 11-ekv		
Acidification (AP):	kg SO ₂ -ekv.	Ground-	level ozone (P	OCP): kg eten-ekv		
Overfertilization (EP):	kg (PO4) ⁻³ -ekv	Renewable energy:		MJ		
		Non-renewable energy:		: MJ		
If no EPD or similar life cycle analysis exist, describe how the environmental impact is considered from a life cycle perspective:						
If any calculations have been made in Green guide, state the grade:						

6. Distribution of finished product

Does the supplier put into practice a system for returning load carriers for the product?	Not relevant	🗌 Yes	🔀 No
Does the supplier put into practice any systems involving multi-use packaging for the product?	Not relevant	🗌 Yes	🛛 No
Does the supplier take back packaging for the product?	Not relevant	Yes	🖂 No
Is the supplier connected to a system for producer responsibility for packaging?	Not relevant	🛛 Yes	🗌 No
Other information			

7. Construction phase

Are there any special requirements for the product during storage?	Not relevant	🛛 Yes	🗌 No	If "yes", please specify Keep frost free		
Are there any special requirements for adjacent building products because of this product?	Not relevant	🛛 Yes	🗌 No	If "yes", please specify > +5°C		
Other information: Se item 7 in the Safety Data Sheet for information about handling and storage.						

8. Usage phase

Does the product involve any special requirements for intermediate goods regarding operation and maintenance?	Yes	No No	If "yes", please specify				
Does the product have any special energy supply requirements for operation?	Yes 🗌	🛛 No	If "yes", please specify				
Longevity: Estimated technical service life for the product may under optimal and correct conditions vary. The actual lifespan depends on situation-specific factors, such as substrates, the application procedure, wear and ambient climate (eg humidity, temperature, sun, wind) and therefore may vary. The product itself often protects the underlying material, thereby lengthening the entire product / substrate life.							
Is there a label for consumption of energy for the product Not relevant for chemical products							
Other information							

9. Demolition

Is the product ready for disassembly (taking apart)?	Not relevant	Yes	🗌 No	If "yes", please specify
Does the product require any special measures to protect health and environment during demolition/disassembly?	Not relevant	🗌 Yes	🔀 No	If "yes", please specify
Other information				

10. Waste management

Is it possible to re-use all or parts of the product?	Not relevant	🗌 Yes	🗌 No	If "yes", ple specify	ease			
Is it possible to recycle materials for all or parts of the product?	Not relevant	Yes	🗌 No	If "yes", ple specify	ease			
Is it possible to recycle energy for all or parts of the product?	Not relevant	Yes	No No	If "yes", ple specify	ease			
Does the supplier have any restrictions and recommendations for re-use, materials or	Not relevant	Yes 🗌	No No	If "yes", ple specify	ease			
energy recycling or waste disposal?								
Enter the waste code for the supplied product 08	30410			-	1			
Is the supplied product classed as hazardous was	te?			Yes	🛛 No			
If the chemical composition of the product differs after having been built in from that which it had at the time of delivery, meaning that another waste code is given to the finished built in product, then this should be entered here. If it is unchanged, the following details can be omitted.								
Enter the waste code for the built-in product								
Is the built-in product classed as hazardous waste	Is the built-in product classed as hazardous waste?							
Other information:								

11. Indoor environment

Product not intended to be used indoor	Product emissions	has no	meas	urrent methods uring not applic roduct	I I Emissions from th			
The product emits on intended usage the following emissions:								
Type of emission	Result measuring point 1	Result measurir point 2	ng	Unit	Method/s	tandard	Comment:	
TVOC	<100			µ/m²h	ISO 16000-	.9	28 days	
Can the product itself	give rise to any	noise?	\boxtimes	Not relevant				
Can the product give	rise to electrical	fields?	🔀 Not relevant					
Can the product give rise to magnetic fields?				🛛 Not relevant				
Other information:
