**General information** Product: Owner of the declaration: Dalapro Lightning Medium Plus Saint-Gobain Sweden AB, Scanspac Contact person: Christian Nilsson Phone: +46 (0)19-46 34 00 e-mail: info@dalapro.se Program operator: Manufacturer: The Norwegian EPD Foundation Saint-Gobain Sweden AB, Scanspac Pb. 5250 Majorstuen, 0303 Oslo Phone: +47 97722020 e-mail: post@epd-norge.no **Declaration number:** Place of production: NEPD-1999-883-EN Saint Gobain Sweden AB, Scanspac Site: Glanshammar, Kemivägen 7, 70597 Glanshammar, SWEDEN Site: Sala, Norrängsgatan 35, 73338 Sala, SWEDEN ECO Platform reference number: Management system: ISO 9001, ISO 14001 This declaration is based on Product Category Rules: Organisation no: 556241-2592 CEN Standard EN 15804:2012+A1:2013 serves as core PCR. NPCR 009 version 1.0 Statement of liability: Issue date: 10.01.2020 The owner of the declaration shall be liable for the underlying Valid to: 10.01.2025 information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences. **Declared unit:** Year of study: 1 kg Dalapro Lightning Medium Plus 2018 Declared unit with option: Comparability: EPD of construction products may not be comparable if they not A1,A2,A3,A4 comply with EN 15804 and seen in a building context. **Functional unit:** Author of the Life Cycle Assessment: The declaration is developed using eEPD v3.0 from LCA.no Approval: Company specific data are: Collected/registered by: Ellinor Johansson Internal verification by: Christian Nilsson Verification: Approved: Independent verification of data, other environmental information and the declaration according to ISO14025:2010, § 8.1.3 and § 8.1.4 External Third party verifier: Sign and Konnig Senior Research Scientist, Anne Rønning

(Independent verifier approved by EPD Norway)

Managing Director of EPD-Norway

### **Product**

#### **Product description:**

Dalapro Lightning Medium Plus is a ready-mixed all-round filler. This spray filler has good filling capacity and the smooth consistency makes it easy to work with. Suitable for initial filling, joint filling and thin smoothing. Suitable for most substrates in new construction and renovation. Nordic Ecolabelled.

MATERIAL CONSUMPTION For joint filling on plasterboard: approx. 0.3 litres/metre. For thin smoothing with a 1 mm layer thickness: approximately 1 litre/square metre.

#### **Product specification**

Packaging: 15-litre plastic sack

Materials	%
Filler Dolomite	40-50%
Water	30-50%
Binder	2,5-10%
Filler Perlite	2-5%
Thickener	1-3%
Additive	1-3%

#### Technical data:

Binding agent: Latex co-polymer

Solvent: Water

Grain size: Max. 0.2 mm

pH: Approx. 9 Colour: Grey

#### Market:

Europe

#### Reference service life, product

Filler has a limited shelf life and is date-marked. Unopened packaging can be kept in a dark place, free from frost, for up to 12 months. Containers that have been opened must be sealed well.

### Reference service life, building

Not part of the declaration.

### LCA: Calculation rules

#### **Declared unit:**

1 kg Dalapro Lightning Medium Plus

#### **Cut-off criteria:**

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included. These cut-off criteria do not apply for hazardous materials and substances.

#### Allocation:

The allocation is made in accordance with the provisions of EN 15804. Incoming energy and water and waste production in-house is allocated equally among all products through mass allocation. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

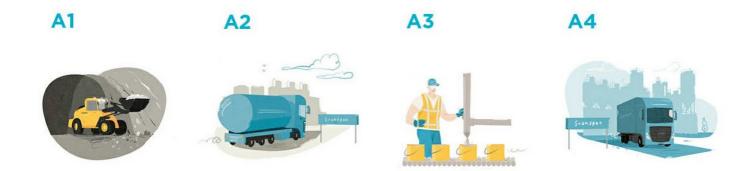

#### Data quality:

Specific data for the product composition are provided by the manufacturer. They represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on registered EPDs according to EN 15804, Ostfold Research databases, ecoinvent and other LCA databases. The data quality of the raw materials in A1 is presented in the table below.

Materials	Source	Data quality	Year
Chemicals	Chemicals below cut-off	No data	0
Additives	ecoinvent 3.4	Database	2017
Cellulose Ether	ecoinvent 3.4	Database	2017
Filler	ecoinvent 3.4	Database	2017
Packaging	ecoinvent 3.4	Database	2017
Water	ecoinvent 3.4	Database	2017
Packaging	Modified ecoinvent 3.4	Database	2017

### System boundary:

### Additional technical information:

Meets CE-marking requirements in accordance with EN 13963. Manufactured in accordance with ISO 9001 and ISO 14001. When treating plasterboards, follow recommendations in accordance with EN 13963.

## LCA: Scenarios and additional technical information

The following information describe the scenarios in the different modules of the EPD.

### Transport from production place to user (A4)

# **Additional Norwegian requirements**

### Greenhouse gas emissions from the use of electricity in the manufacturing phase

National production mix from import, low voltage (production of transmission lines, in addition to direct emissions and losses in grid) of applied electricity for the manufacturing process (A3).

Electricity mix	Data source	Amount	Unit
Renewable electricity with Guarantee of Origin from LOS (kWh)	Modified ecoinvent 3.4	60,20	g CO2-ekv/kWh

#### **Dangerous substances**

The product contains no substances given by the REACH Candidate list or the Norwegian priority list.

#### Indoor environment

Emission test performed by Eurofins according to the ISO 16000 standard.
