

DALAPRO[®]

FINE

Ready-mixed fine-grained white hand filler
for renovation and new construction.

Ready-mixed fine-grained hand filler.

For repairing and smoothing.

Easy to sand.

For indoor use on walls and ceilings.

DALAPRO[®] FINE

Ready-mixed fine-grained white hand filler for renovation and new construction.

PRODUCT INFORMATION

Dalapro Fine is a white, ready-mixed, fine-grained hand filler on all common types of indoor wall and ceiling surfaces. The smooth consistency makes the product particularly suitable where extremely smooth surfaces are required in both renovation and new construction.

USE

Suitable for most substrates and produces a fine finish ready to paint. Meets CE-marking requirements in accordance with EN 15824. Manufactured in accordance with ISO 9001 and ISO 14001.

INSTRUCTIONS

Apply by hand to clean, dry and intact surfaces. Temperature: minimum +5°C. Sand the filled surface down once it has dried. Use sandpaper with grain size 100–120. Eye and respiratory protection are recommended when sanding. Dust off before next treatment. Filled surfaces should be primed before wallpapering.

DRYING TIME

The drying time is dependent on factors such as substrate, layer thickness, temperature and humidity.

MATERIAL CONSUMPTION

1 mm thin coat plastering = approx. 1 litre/m².

CLEANING AND DISPOSAL

Remove as much filler as possible from the tools before cleaning them in water. Filler residues must not be poured down the drain, but taken to the local waste disposal centre. Empty packaging completely and recycle it.

STORAGE

Filler has a limited shelf life and is date-marked. Unopened packaging can be kept in a dark place, free from frost, for up to 12 months. Containers that have been opened must be sealed well. Visit dalapro.com for more information.

TECHNICAL DATA

Binding agent: Latex co-polymer

Solvent: Water

Filler: Microspheres and white dolomite

Grain size: Max. 0.15 mm

pH: Approx. 9

Colour: White

Flammability: Does not spread or support fire

Packaging: 0,4-litre Tube, 3- and 10 litre plastic buckets

Dalapro Fine 3 litre and 10 litre is packaged in a bucket manufactured in 100 % recyclable plastic and consists of at least 90 % recycled plastic.
