

This environmental declaration is formulated in accordance with Byggsektorns Kretsloppsråd (The Ecocycle Council for the Building Sector) and Sveff (Sveriges Färgfabrikanters Förening – Swedish Paint Manufacturers' Association) guidelines for environmental declarations. The information is based on industry agreements, industry recommendations and applicable legislation

Environmental declaration Paint products

Brand: Dalapro DM 20, DM 40, DM 60

Environmental labelling: Yes No Type of labelling: _____ Licence number: _____
Comments: _____

Company information

Company name: Saint-Gobain Sweden AB - Scanspac Telephone 1: +46 (0)19-46 34 00
Corporate ID number: 556241-2592 Telephone 2: _____
Contact person: Berth Westman Fax: _____
Street address: Kemivägen 7 E-mail: info@dalapro.com
Postal address: SE- 705 97 Glanshammar Website: www.dalapro.com

Environmental Policy Yes No **Environmental management system** Yes No
Comment: Environmental work based on an overall view of the impact of the product throughout its service life Type: ISO 14001
Certified:
Registration number: 2007-SKM-AE-1214

Content declaration

Materials/substances Included	Type **	CAS-number	Environmental hazard*	Health danger*	Weight %
<i>Calcium sulfate</i>	<i>B</i>	<i>7778-18-9</i>			<i>60-70</i>
<i>Calcium carbonate</i>	<i>F</i>	<i>1317-65-3</i>			<i>20-30</i>
<i>Polymer</i>	<i>S</i>	<i>-</i>			<i>2-5</i>

* According to the regulations and general advice of the National Chemical Inspectorate on classification and labelling, 1999:3 ** B=binder, P=pigment, F=filler, S=solvent, A=additive
The solvents evaporate at the building stage and will no longer be present at the usage stage.

Environmental impact (production stage)

Energy type		Discharge into water	per kilo of product	Emission into the air	per kilo of product
Coal	%	COD	No discharge	CO ₂	No information*
Water	%	BOD	No discharge	CO	No information*
Oil	30%	P	No discharge	SO _x	No information*
Gas	60%	N	No discharge	NO _x	No information*
Electricity	10%	Heavy metals	No discharge	Dust	No information*
Biofuel	%			Ammonia	No information*
Own	%			VOC total**	No information*
	%				
Total use of energy ***					

* Not relevant

** Volatile organic substances

*** KWh per kilo produced product

Raw material stage

There is no information for raw materials.

Source of raw materials/input goods

	Scandinavia (%)	Rest of Europe (%)	Other (%)
Region of origin of the raw materials (Total for the manufacturing unit)	95	5	0

Production stage

Does production generate residual products?

Yes No

If yes, how are these dealt with:

Is any hazardous waste generated during production?

Yes No

If yes, how is this dealt with:

EWC code:

10 12 06 wastes from manufacture of ceramic goods, bricks, tiles and construction products ,discarded moulds

10 13 99 wastes from manufacture of cement, lime and plaster and articles and products made from them, wastes not otherwise specified

Distribution of product**Production location and country** GermanyMost common transport method (%): Truck 90% Ship 10% Plane Train Other

Forms of distribution

Via warehouse: Direct to customer

Special forms of delivery

Bulk: Large packs: One-off packages:

Other:

Packaging

Types of material used: Paper bag with plastic inner line

REPA²- connection: Yes: Customer no.: 9169312619 No:

If there is no REPA connection, specify how the producer responsibility is met: _____

Building stage

The product must be stored: Frostproof
 According to the Act (1988:868) on flammable & explosive goods

Usage stage

Operation / maintenance The product is mixed with water during operation, but does not require special input goods for maintenance

Service length: Provided that the product has been applied in the manner stipulated by the manufacturer/supplier, the product can last as long as the base to which it is applied.

Emission

Type of emission	Amount of $\mu\text{g}/\text{m}^2 \text{ h}$			Measuring method
	4 weeks	26 weeksweeks	
-	-	-	-	-

Demolition/removal

Does the item require special measures for protection of health and the environment?	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
--	------------------------------	--

If yes, specify how: _____

Cured product is handled as per the ordinance on hazardous waste Yes No

Non-cured product is handled as per the ordinance on hazardous waste Yes No

Is energy recovery possible for the product?* Yes No

* Incineration should take place in controlled forms, e.g. in a combustion plant intended for the purpose..

Other information: _____

² REPA = Register for Product Responsibility, cooperation between material companies.
