

Quality, Environment and Health & Safety Policy

Saint-Gobain Sweden AB, BU Scanspac

Our vision

Scanspac shall be the leading supplier in Europe of wet ready mix products (WRM) and accessories for repairing, levelling and decorating walls and ceilings indoors.

Our target group is professional users and consumers.

Our ethical rules for behaviour and action

- Professional commitment
- Respect for others
- Integrity
- Loyalty
- Solidarity
- Respect for the law
- Caring for the environment
- Compliance with workplace health and safety guidelines
- Respect for Employee rights

Our view of quality, environment and health & safety

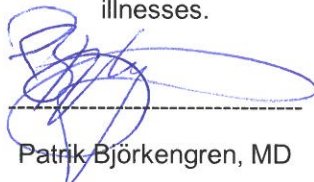

Our work on issues relating to quality, environment and health & safety shall be characterised by an open, responsible dialogue with all our stakeholders (customers, suppliers, contractors, employees and owners).

We shall follow up on our dialogue through an effective management system that encompasses quality, environment and health & safety. The management system shall create the conditions for us to set measurable goals and follow the Group's guidelines as well as laws and other requirements. We shall strive continuously to improve our work method and our performance.

We shall offer our customers an innovative, fault-free and value-for-money solution and supply our products to the right place at the right time.

We prioritise sustainable construction, in which we actively prevent pollutants in our environment by means of managed, controlled and effective environmental work.

Through our management system we shall prevent injury and illness. The only acceptable objective for us is zero work-related accidents and zero work-related illnesses.

Patrik Björkengren, MD
