Tools for painters & decorator professionals

SAINT-GOBAIN

Perfect finish with the Speed Smoother

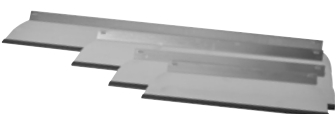

The Speed Smoother is an ergonomically shaped smoothing knife with an easy-grip handle for filling ceilings and walls. Hand-held or used together with extension pole and adapter.

Speed Smoother

Broad Smoothing knife with ergonomic, easy-grip handle. Available in 40, 50, 60 and 80 cm sizes. The blade is made of hardened stainless steel and can be replaced. Compatible with extension pole and adapter.

Art. no. 40 cm 642200
Art. no. 50 cm 642201
Art. no. 60 cm 642202
Art. no. 80 cm 642203

Speed Smoother Replacement Blades

Replacement blades for the Speed Smoother. Easy to replace. The blades are made of hardened stainless steel and are 0.3 mm thick with rounded edges.

Art. no. 40 cm 642206
Art. no. 50 cm 642207
Art. no. 60 cm 642208
Art. no. 80 cm 642209

Extension Pole

Extension pole for smoother. Compatible with the Adjustment Adapter and Speed Smoother. The extension pole is made of aluminium to make it as light as possible and has a quick-lock function. Surface-treated to avoid black discolouration.

Art. no. 642226

Adjustment Adapter

Adapter for Speed Smoother. Clamps the smoother in place and is adjustable to various angles for optimal access and convenience.

Art. no. 642225

Special tools for professionals

Convenient, user-friendly tools of high quality. The hammer head is made of solid cast chrome alloy steel with aluminium. Ergonomic rubber grip with patented design.

Standard Knives

A standard tool for filling. The blade is stable, 1.2 mm thick and made of hardened stainless steel. The tool has an integrated screwdriver. Available in two sizes, 6 cm and 8 cm.

6 cm Art. no. 642213
8 cm Art. no. 642214

Heavy Duty

A tool with an extra-thick blade angled at 20 degrees for maximum efficiency when removing wallpaper. The blade is made of hardened stainless steel. The tool has an integrated screwdriver.

Art. no. 642220

Triangle

For filling internal 90 degree corners on walls and ceilings. The blade is made of hardened stainless steel and is shaped to an angle of 90 degrees. The tool has an integrated screwdriver.

Art. no. 642222

Multi-Tool

Allround tool with lots of smart functions. Extra-thick 1.7 mm blade made of hardened stainless steel. Can be used to clean rollers and clamps, to remove pins and screws and to scrape off old paint and wallpaper. The tool has an integrated screwdriver.

Art. no. 642219

Half Moon

For filling various corners and for inaccessible places, e.g. behind plumbing and radiators. The blade is made of hardened stainless steel. The tool has an integrated screwdriver.

Art. no. 642221

Scanspac is the Nordic region's leading supplier of filling products and accessories for professional craftsmen. The products have been developed to meet our customers' strict requirements for ergonomics, quality, economy and effectiveness. The filling products are quality-assured to ISO 9001 and environmentally certified to ISO 14001.
